

BENEFITS OF ASSESSED PRODUCTS

MAXIMUM PERFORMANCE AND GUARANTEE

Our assessed products have passed more than 150 tests in prestigious laboratories: EOTA, ICC, CE... which ensures the correct performance of the product and with the maximum guarantee

LOWER COST

With greater traction capacity, fewer anchors are needed in each installation.

SECURITY

Proven technical information. The anchor complies fully with the specifications.

INSTALLATION IN PUBLIC WORKS

Enables bidding on projects that require the installation of assessed products.

EXTREME INSTALLATION GUARANTEE

They can be installed in the most demanding materials, such as cracked concrete, or in earthquake zones.

INDEXcal

All anchors assessed at INDEX Fixing Systems are integrated in the anchor calculation software to offer the maximum guarantee.

Only assessed products maintain the highest standards of quality, efficiency and performance.

SAFETY IS NOT AN OPTION, IT IS AN OBLIGATION.

**MAXIMUM
QUALITY**

INDEX Fixing Systems

Our desire to improve and certify the quality of our offer to meet the needs of our customers leads us to increasingly expand our range of certified products.

The approval processes are carried out by prestigious institutions that guarantee that our products meet the highest standards of quality and technical suitability.

THE FOLLOWING ASSESSMENTS PROVIDE THE HIGHEST QUALITY GUARANTEE

European Technical Assessment

European Conformity

Seismic Assessment

Underwriters Laboratories

FM Assessment

Fire Resistance

Reduced VOC emissions

Leadership in Energy and Environmental Design

ICC-ES®

Water Regulations Advisory Scheme

NEW

MTH-A2

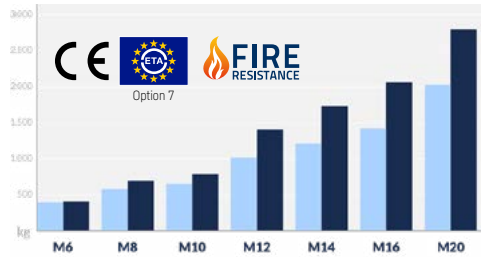

**NEW ON THE
MARKET**
STAINLESS STEEL A2
+ ETA Opt.7.

NEW

MTH

**+40%
LOADS**

The performance of MTH anchors has been increased by up to 40% with improvements applied to the shaft and clip design.

MTH RANGE

MTH / ETA Opt.7 | ZINC-PLATED SHAFT & CLIP

MTH-A2 / ETA Opt.7 | STAINLESS A2 SHAFT & CLIP

MTH-A4 / ETA Opt.7 | STAINLESS A4 SHAFT & CLIP

MTP

The MTP anchor with ETA approval Option 1, seismic and fire resistance approval, is designed for the most demanding projects.

MTP-X / ETA Opt.1 | ZINC-PLATED SHAFT & SHERARIZED CLIP

MTP-A4 / ETA Opt.1 | STAINLESS A4 SHAFT & CLIP

MTP-G / ETA Opt.1 | SHERARIZED SHAFT & STAINLESS A4 CLIP

MTP / ETA Opt.1 | ZINC-PLATED SHAFT & STAINLESS A4 CLIP

TH-DEX

High performance screw for direct fixing
in concrete.

Quick and easy installation.
Not torque wrench needed.

Reusable, leaving the surface clear
after extraction.
